Shared Process Improvement and Performance Excellence **RAPID IMPROVEMENT EFFORT**

Rapid Improvement Effort (RIE) enables you to identify a single area of concern that will benefit from a redesign resulting in rapid improvement. Small Kentucky districts such as Lee County found \$300,000 in savings from its RIE work. Examples RIE projects include salary structures, long-term facilities planning, operations, hiring quality people, budget development process, and transportation.

Presented in a 3-day, face-to-face setting, this workshop will provide a collaborative forum to learn about effective tools and techniques to enable your district to align around important initiatives, ensure effective use of resources, establish clear ownership of deliverables, appropriate resource and plan for change, and organize information management and flow.

The time between the first and second sessions will allow teams to complete the work they start at the workshop. Completing the work in their districts will allow teams to engage other critical stakeholders. Each district will be supported with virtual coaching, as needed.

An additional face-to-face meeting will be held to wrap up the work. It will include:

- a. Each district sharing their story board with the other districts
- b. Integrating feedback from other districts, if appropriate

Date: Session 1 - October 30-31, 2018; Session 2 - TBD
Location: KASA Training Center, Frankfort
Time: 8:30 a.m. to 3:30 p.m.
EILA: 18 hours EILA will be provided
Cost: \$4,500 per district team (3 to 5 participants)

Each cohort will be comprised of 10 districts.
